BAR & KITCHEN

## WELL, HELLO SPRINGTIME!

And welcome to the 155 Bar & Kitchen wine list.

My work as an international wine judge takes me to the new frontiers of the wine world and we are delighted to share these delicious wines from Greece, Turkey, Lebanon and beyond with you.

Wine-adventuring is one of the great drinking joys - so we make a point of offering these lesser known and unusual wines by the glass.

People are falling back in love with elegant and fresh white wines and here we offer great examples of old-world classics such as Muscadet and Cour-Cheverny, as well as very fine new-world examples including the sensational Ministry of Clouds Riesling from Clare Valley, Australia.

You will still fancy some red given our mercurial British spring, so we have some really fabulous small parcels of top notch and plush reds with the proper amount of bottle age.

And don't forget the small but perfectly formed sweet section at the end of the list - an ideal liquid dessert.

You can buy any of our wines at retail prices to take home - just ask your server.

Cheers!
